Optimize staff-centric operations.

Nurses spend just 37% of their time on patient care.

Gain a bird's eye view into staff operations, observe inefficiencies, and streamline the processes to manage time and labor better. Focus on better patient care.

Monitor whether tasks are completed within specified durations and act accordingly.

Observe staff density and identify bottlenecks throughout the hospital.

Measure and improve staff response time to the patients and time spent in each patient room.

STAFF DURESS

Save staff with one button.

Protect your staff by enabling them to make an emergency call with the press of a single button on their Borda Staff Tag.

Ensure that your staff can call for emergency 24/7 across the hospital.

Minimize response time. Emergency calls are transmitted to security personnel with the exact real-time location information of the caller.

Adam Gray, White Code Call at 17.10.2019 17:10:36 in (TR0401010603601) Bursa City Hospital- Patient Room 110
